

SERVICE SOLUTIONS // AGOL - EXCHANGE & RENOVATION

AGOL ACTUATOR RENOVATION PROGRAM

To maintain yield improvements, it is of utmost importance that the back positioner straightens the carcass halves, ensuring accurate measuring and precise cuts of the product.

As the actuator is vital for the function of the back positioner, along with several other tasks in your AGOL, you have the option to benefit from our renovation program, and therefore, the opportunity to ensure improved yield.

Maximize your up-time by stocking an actuator, and when needed you can replace the unit within minutes. Ship the damaged unit to us, and repair specialists will handle the renovation.

Do not hesitate to contact us for more information. We are here to help!
