

SERVICE SOLUTIONS // AGOL ON-SITE SERVICES

HOW TO HAVE PRECISE AND INDIVIDUAL CUTS ON YOUR AUTOMATIC PRIMAL CUTTING LINE

Increase your profit by having your certified Frontmatec specialists ensure precise measurements and registration of each carcass through exact alignment and adjustment of the pubic bone and shoulder muscle detector together with the fixture unit.

Maintain high performance by ensuring an optimal production flow, using skilled and experienced technicians, who knows what bearing to change and can perform the precise adjustment of your conveyors and saws.

Stay prepared for the unexpected by stocking critical spare parts for daily operation, such as linear actuators, blades, conveyor belts and bearings
